

BIG MOUNTAIN PRODUCTIONS

is a new independent television company specialising in popular documentary, original formats and events for local, national and international television markets.

We have a reputation for big bold television events that break new TV ground.

Our original format JAM, a live factual entertainment event show for cool teenagers stripped across the week brought new viewers to TV, was re-commissioned by RTE and is distributed worldwide by our distribution partners, 'Outright' (formally ScreenTime Partners).

This year at MIPTV in Cannes we launched our latest format 'Classic JAM' where we select and mentor the brightest new classical talent

building to a live performance and nationwide vote for the best.

We produce innovative programmes that connect with an audience. Our documentary 'Tiago and The Tunnel' was a ratings winner for BBC 1 NI that brought a brand new voice to television, the enigmatic 10 year old Tiago Serrador and his unique take on life as a Portuguese immigrant in one of the most notorious sectarian interfaces in Portadown – The Tunnel.

An Irish television first, this year sees us following the work of the new Garda Traffic Corps. to see just how dangerous and badly behaved we really are on our roads in a new 6 part primetime series for RTE 1.

PASSION STATEMENT

We are passionate about our programmes, love bringing ideas to screen, want to discover new talent to help us grow and deliver great TV to audiences and broadcasters worldwide.
